

## MEMORANDUM

To: Corporate Client  
From: Gus M. Shihab, Esq.  
Subject: Attorney Fees for Cap-subject H-1B Visa

### I. The H-1B Visa Electronic Registration Process – H-1B Lottery

We are gearing up for the upcoming H-1B electronic registration process for the H-1B visa cap season (FFY 2026) – also known as the H-1B visas lottery process.

The electronic registration process requires employers to first register the names of candidates whom they wish to have cap-subject H-1B visa petitions filed. Employers will then be **required** to file petitions for those beneficiaries selected within 90 days after the selection is announced. We are modeling the timelines based on the experience from last year, as the dates have yet to be announced. Here are some key timelines:

- **Registration** will **begin** the first week of **March 2025** and will **close** on approximately **March 21, 2025 at Noon EST**, unless extended due to technical issues in rare circumstances.
- **The Selection Process (lottery)** will be announced by no later than **March 31, 2025**.
- **Petition Filings** for H-1B visa lottery winners must be made between **April 1, 2025** and **June 30, 2025**.

### II. Our Services

**Please note**, the pre-registration process requires you, as the Petitioner, to attest that an H-1B petition will be filed on behalf of the named Beneficiary, if selected. Therefore, if you have any concerns about the viability of the proposed filing, we suggest you notify us immediately to save time and expense on your end. If your organization is not very familiar with this process, we highly recommend you request a time to speak with one of our highly skilled attorneys to ensure viability of your selected employee's petition and ultimate success and/or timely steps that must be taken prior to registration and ultimately filing. Note that our office conducts pre-registration reviews on all cases, to ensure we are able to notify you of any concerns prior to the actual registration. Our team will handle your organizations creation of the fairly new USCIS Organizational Accounts, to ensure you have ease of access with the new system that was unveiled last year and made accessible to employers February 28, 2024. This new system will allow your organization to assign administrators and members to your organization, and boasts a more accessible platform for the advancement of online filings, and H-1B CAP registrations.

We will be processing H-1B visa cases in the following two-tier system:

**Tier One:** (Petitions filed between **April 1 – April 30**): These petitions will be prepared prior to the selection process to ensure timely filing and adjudication of H-1B petitions. As petitions will be adjudicated on a first-in basis, this will provide the best chance of approval prior to the October 1 commencement of status date. Additionally, filing during this period may be beneficial to those on F-1 OPT that would benefit from cap-gap extension. **Note that this process will be billed immediately.** If not initially selected, but later selected through the possible second/third round of selections that may be released, the petition will be ready for filing based on these prior preparations, rather than a separate fee.

**Tier Two:** (Petitions filed between **May 1 – June 30**): These petitions will be prepared and filed after all Tier One cases have been submitted. All necessary information and documentation should be provided to our office no later than **May 1** to allow adequate time for preparation. **This process will be billed ONLY if your candidate is selected in the lottery.**
